

Commissioned and Bespoke Art

Thank you for commissioning me to create a special art piece for you. I create all my art myself and by hand, at my home studio in Scotland. Because I do not use patterns or moulds, each piece is entirely unique.

With this document I hope to provide you with some practical information regarding commissioned pieces.

Please read it through carefully, but if after reading you have more questions, do not hesitate to ask me via anouk@pantovola.com

• ***The Memory Doll***

A special doll made with textiles and clay

This doll is made to honor /commemorate a person or animal, and the memories of them.

For such a doll I can include materials or objects that you wish me to include.

These may be textiles, garments, jewels, old letters, photographs, anything that is important or relevant to artwork. You may send me materials to use in your artwork if you wish.

• ***The Heirloom Doll***

This is a doll of heritage, that can be passed on from generation to generation

She carries special family pieces which otherwise might get lost or left in a drawer. This doll is a special way to bring together some family history into one art piece, so it can be treasured and preserved for the future.

For this type of doll it is important to provide materials and objects that can be worked into the piece.

• ***The Guardian Witch Doll***

A doll made to be your eternal friend and guardian.

She is in concept quite like the old Queen Ann dolls made for affluent ladies back in the day, but with some extra witchness attached to her.

For this doll you can lay out some of your personal spiritual concepts and ideas, which can be worked into the piece.

Think of special protective herbs that can be carried by the doll in a beautiful pouch or a magic spell written in out as embroidery.

• ***The Doll of Secrets***

This doll will keep your deepest secrets safe.

Old love letters or pages of ones diary may be hidden in the doll's under garment, relics from an

almost forgotten past can be carried by her in a little pouch.

Again, for this doll it is important to provide personal objects and materials that can be used in the piece.

• ***Memory Brooch***

Inspired by the Victorian Mourning jewelry of the 19th century, the Memory Brooch is a small art piece which can be worn close to the heart as a brooch.

It can be made in honor of someone dear or hold a treasured memory inside.

The brooch can be a textile portrait, hand painted on the cloth, or a small object with memories embroidered on it; a name, a special date and so on.

It can be filled with something special, little secrets, scent, a lock of hair.

Look at this brooch as a tiny version of the Memory Doll.

• ***Other Bespoke Pieces***

If you have a specific piece in mind you would like to see created that is not described above, I do consider all of your ideas that are in line with my art work.

However, I do not create replicas of previously made artworks.
